

## **How can I purchase goods from the Products Page?**

Select the items you are interested in purchasing.  
Click on the "Click to Order" link and complete the form, listing details of the items, sizes and location for delivery.

I will e.mail you a quote (usually within 24 hours), including freight costs and list payment options.

Payment may be made by cheque, direct debt to my account or visa card (over the phone).

Once your payment has been received, you e.mail and advise me off your delivery address.

I will then deliver goods asap, advising you that they are on route.  
Most products are shipped via Courier.

Alternatively you can purchase goods direct from the "Online Shop" using your credit card.

## **What if the goods are not in the "On-Line" shop?**

If the goods are not in the shop and you still wish to use credit card facilities on-line, e.mail me and I will move your goods over into the shop for a limited time for you to complete your transaction. This can be done immediately and usually I will lump all your items into one "shop" item.

## **Can I pay by Credit Card over the phone?**

We can take credit card transactions over the phone, but we will never request details via e.mail. This is to protect you accounts.

## **Can I save money?**

Purchases made via internet banking or deposited via your local bank direct to my account will receive a small discount at the time of purchase.
