

Nacra 430

Nacra is proud to announce the launch of its new Catamaran.

The Nacra 430.

This new 14ft boat is the Next generation of 14ft catamarans.

The boat will be sold in 3 versions.

Clubman - Boat designed for clubs
With mainsail only and shallow draft rudders.

Dacron sail for long durable life.

Sports - Boat designed for club racer.
Will feature flex Mylar mainsail and jib.
Deep rudders and all the latest features.

The Next Generation of 14ft Catamaran.

Rocket - Boat designed to have all the features of more expensive boats.
Featuring midpole snuffer spinnaker as in F-18
Flex Mylar main and jib.

We have designed this boat to be the next Generation of 14ft catamaran.

It features all the latest technology in design and build techniques.

It has large storage in both hulls in all models.

Which is great for the family that just wants to use the boat as a social boat.

We wanted to make a boat that looks modern, features all the modern equipment available on larger boats but a boat that is still simple to sail and very versatile.

This was achieved by the boomless mainsail and kick up rudders which are great for safe beaching.
