

# Nacra 14sq

The 14sq is the smallest of the Nacra range of single handed racing catamarans, yet delivers pure performance for its size. It will easily compete with much larger boats. It is a “Pocket Rocket”.

Yet is so simple to rig and sail, it features a boomless mainsail (IACTS) Integrated adjustable clew traveller system, ensuring optimum performance on and off the wind.

It has high lift daggerboards offering high pointing ability and blazing tacks. The 14sq is simple for a beginner to rig and handle yet sophisticated enough to satisfy the most discerning high performance sailor.
